Question-1: Download

the Dataset

Solution:

```
from google.colab import

drivedrive.mount('/content/drive')

#-----------------------------------#
#-----------------------------------#
```

Download the Dataset

```
In [2]: from google.colab import drive
        drive.mount('/content/drive')

Drive already mounted at /content/drive; to attempt to forcibly remount, call drive.mount("/content/drive", force_remount=True).
